Welcome!

Carpenter St. Croix Valley Nature Center (CNC) is a private, non-profit education and conservation organization established in 1981 by an endowment from the Thomas E. and Edna D. Carpenter Foundation.

CNC now comprises some 725 pristine acres in Minnesota and Wisconsin, with several miles of self-guided and wheelchair accessible trails. Our Visitor Center offers several hands-on educational exhibits and is home to our animal ambassadors.

Both the trails and buildings are open seven days a week, all year, from 8:00 a.m. to 4:30 p.m. free of charge. Donations are appreciated. Binoculars and snowshoes (in winter) are available for rent.

Educational programs are offered for a small fee on weekends or evenings to the general public and are listed in our newsletter and online. Groups can make a reservation for a naturalist led environmental education program by calling our office at (651)437-4359.

Enjoy your visit!

Trail Descriptions

SELF-GUIDED TRAIL
Pick up our Self-guided Trail booklet and be your own teacher as you wind through the many habitats present at CNC. This easy paved walk has a series of numbered checkpoints where you can stop to learn about some of the natural wonders you may see while on your visit.

SAVANNA TRAIL
Beginning near the Pergola, this mowed-grass trail leads you through grassland and oak savanna. It connects with the Self-guided Trail at the River Overlook.

BEACH TRAIL
As you walk through a deciduous forest, this 0.1 mile steep woodchip trail brings you down the ravine to the river. The trail is accessed at the top by the Self-guided Trail and at the bottom by the Railroad Bed Trail.

SOUTH RIVER BLUFF TRAIL
This steeply sloped woodchip trail, accessed at the top by the Self-guided Trail, winds among limestone ledges 0.1 mile down to the Railroad Bed Trail by the river.

RAILROAD BED TRAIL
After descending by either the Beach Trail, the North River Bluff Trail, or the South River Bluff Trail, follow this 0.75 mile grass trail along the beautiful St. Croix River.

NORTH LOOP TRAIL
Accessed via the Self-guided Trail, this 1.0 mile paved trail, which circles an old orchard, offers a view of our “sugarbush”, where sap is collected from boxelder trees in the spring for making pure maple syrup. The trail also passes the Trailside Lodge and pine plantation.

NORTH RIVER BLUFF TRAIL
Beginning from the North Loop Trail, this moderately steep woodchip trail goes for 0.7 miles to the Railroad Bed Trail which runs along the St. Croix River.

RED CEDAR TRAIL
An extension of the North Loop Trail, this 0.3 mile gently sloping woodchip trail brings the visitor deeper into the woods overlooking the breathtaking ravine.

PRAIRIE LOOP TRAILS
Visit our prairie restoration site across Cty. Rd. 21 to see native prairie plants in the spring, summer, and fall. The outer grass loop is 1.4 miles with several mowed paths that branch off throughout the prairie.
